THE POWER TO TRANSFORM

The Tri-Wave MD signifies a new era in LED Phototherapy treatments pushing the boundaries of medical LED technology and next level clinical application.

Delivering maximum power via breakthrough targeted ceramic technology and smart integrated cooling, this is the ultimate medically certified LED device for skin care professionals who want to deliver fast, unrivalled results for a wide range of indications.

ACNE
PIGMENTATION
REDNESS
WRINKLES
WOUND HEALING
PAIN

THE POWER OF LIGHT MOST CLINICALLY PROVEN WAVELENGTHS

Dermalux Blue 415nm

415nm is the most proven wavelength to destroy acne causing bacteria. Intended to reduce mild to moderate inflammatory acne vulgaris.

Dermalux Red 633nm

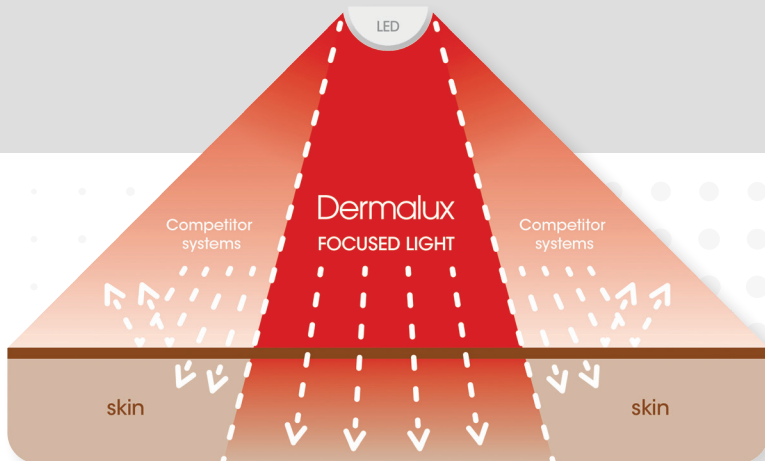

633nm supercharges cellular renewal and boosts collagen to target visible aging. Intended for facial wrinkles, vascular and pigmented lesions.

Dermalux NIR 830nm

830nm triggers healing and reduces inflammation. Intended for temporary relief of minor muscle and joint pain, arthritis and muscle spasm.

TRI-WAVE MD ADVANTAGES

- ✔ **Breakthrough**, ceramic LED technology for maximum power
- ✔ **Targeted** light technology for focused, precision photon delivery
- ✔ **Smart** integrated cooling for consistent treatment performance
- ✔ **Articulated** LED panel design for face, head and body
- ✔ **Advanced** Pre-set, Custom and PDT protocols
- ✔ **Upgradeable** software to maintain the latest updates
- ✔ **Manufactured in the UK** by Aesthetic Technology Ltd
